

We are doing it again! The Estonian Institute of Historical Memory in cooperation with the Embassy of the Federal Republic of Germany invites all those interested in history to participate in a Summer School

The Summer School programmes focus on the history of crimes against humanity and human rights violations during and after the Second World War, which we introduce from the perspective of Estonia's experience. Together, we will visit memorial sites and museums, listen to interesting lectures in a free atmosphere, watch films on the topic, and discuss the importance of learning and teaching history. We will also exchange experiences and ideas of how to study and teach sensitive historical topics in an environment, where ideological values may clash.

Participation in the Summer School is free of charge. The organisers will cover all expenses in Estonia (accommodation, food, and transportation within the programme). The participants will cover their own travel expenses* to and from Tallinn.

The Summer School will be held in **English**.

There are a limited number of places available in the Summer School. **The application deadline is 7 June 2021**. The participants will be announced on 11 June.
